PROFESSIONAL SUMMARY

Frontend Engineer with 1+ year of experience building responsive and accessible web applications using React.js and Next.js. Skilled in JavaScript fundamentals, component-based architecture, REST API integration, and frontend performance optimization. Experienced in translating Figma designs into scalable UI components and collaborating within agile development teams. Familiar with Node.js backend integration and modern development workflows using Git and Jest.

TECHNICAL SKILLS

Frontend

React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), jQuery, Tailwind CSS, Responsive Design

Backend

Node.js, Express.js, REST API Design & Integration, Redis (Caching, Sessions), JWT Auth

Database

PostgreSQL, MySQL, MongoDB, MSSQL

CMS & UI

WordPress, Component-Based Architecture, Dynamic Content Rendering

Testing & Tools

Git, GitHub, Bitbucket, Linux, PM2, Nginx, Postman, Jest

PROFESSIONAL EXPERIENCE

AstroKapoor.

Jan 2025 – Present

Full Stack Developer — Next.js + Node.js + PostgreSQL (Production)

- Developed and maintained reusable React.js and Next.js frontend components using hooks and component lifecycle methods.
- Translated Figma designs and UI wireframes into responsive and accessible user interfaces.
- Implemented SSR and SSG rendering strategies in Next.js for SEO-critical pages, improving Core Web Vitals by approximately 25%.
- Integrated frontend components with REST APIs and backend services using async/await and promise-based workflows.
- Contributed to backend development tasks using Node.js and Express.js under guidance.
- Implemented proper error handling, API validation, and optimized frontend rendering performance.
- Worked collaboratively using Git branching, pull requests, and agile development workflows.
- Participated in debugging, code reviews, and frontend performance optimization discussions with the development team.
- Helped migrate a production website from WordPress to Next.js with zero SEO ranking loss post-launch.

Cybrum Technology Pvt. Ltd.

Sept 2024 – Dec 2024

Software Developer Intern — MERN Stack

- Built 15+ reusable and responsive React.js UI components using hooks and modern JavaScript practices.
- Developed frontend features and integrated third-party REST APIs for MERN stack applications.
- Applied JavaScript fundamentals including closures, scope, promises, and async programming while building application modules.
- Worked on user authentication, CRUD operations, and API integration using Node.js and Express.js.
- Wrote basic unit tests using Jest and participated in collaborative code reviews.
- Worked within agile team environments and followed Git-based development workflows.

KEY PROJECTS & ACHIEVEMENTS

WordPress to Next.js Migration — AstroKapoor

Next.js · Node.js · PostgreSQL · Redis · Nginx

- Developed reusable UI components with React hooks and modular architecture to improve maintainability and scalability.
- Implemented responsive layouts and cross-browser compatibility for mobile, tablet, and desktop devices.
- Optimized frontend performance using image lazy loading, dynamic imports, and efficient API data fetching strategies.
- Integrated dynamic content rendering and SEO metadata handling for high-traffic pages using Next.js.
- Improved user experience and website accessibility following modern frontend best practices.
- Collaborated with designers and backend developers to ensure pixel-perfect implementation of Figma-based UI designs.

ShopEase — E-Commerce Full Stack Application

Next.js · Node.js · PostgreSQL · Redis · JWT

- Built reusable and scalable frontend components using React.js and Next.js for product listing, filtering, and checkout workflows.
- Integrated secure JWT-based authentication and role-based authorization for admin and customer modules.
- Implemented REST API integration with proper loading states, error handling, and asynchronous data management.
- Developed responsive UI interfaces using modern CSS practices and optimized application rendering performance.
- Managed state efficiently using Redux and React hooks for cart, orders, and user session handling.
- Participated in debugging, API testing, and deployment activities using Postman, PM2, and Nginx.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering

2020 – 2024

Technocrats Institute of Technology, Bhopal

CGPA: 8.02 / 10
